Playing Breakout Fun!

Once you've hit "Start", the first round will begin! Participants will be brought to their respective team's answer sheet.

Usually a Volunteer/Team Captain will be in charge of entering the answers, however anyone on the team can view the answer sheet if they wish from their device or laptop.

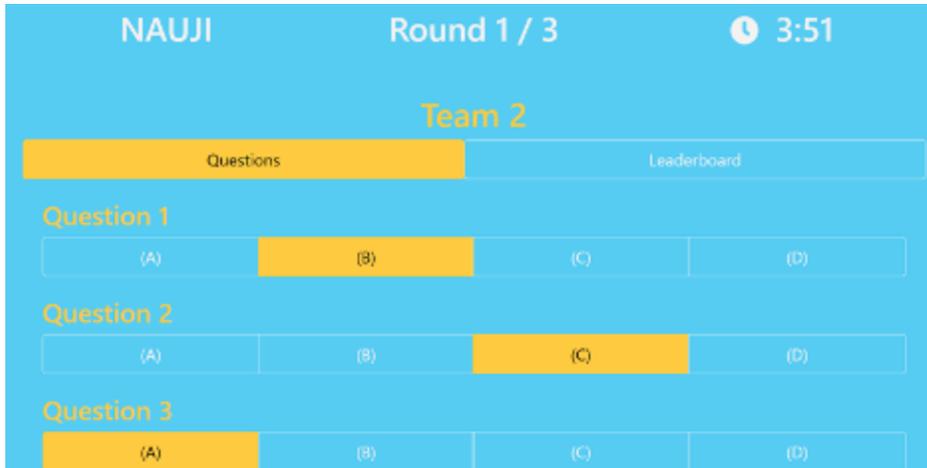

Blank Answer Sheet:

A timer will countdown the predetermined round time as the students work together to discuss the question set with each other and collaborate on their answers.

This is where the real magic of Breakout Fun! begins as the teammates engage and interact with each other as they work to complete the round!

Completed Answer Sheet:

Once the round is over, all teams will return to the Game Lobby, and results can be viewed on the Leaderboard tab.

At this point the Teacher can either choose to review a particular question (maybe one that multiple teams struggled with) or topic, engage in some friendly mid-game banter, or move right into the next round!

Once the teacher begins the next round, the students / participants return to their Answer Sheet and resume the game, and the above steps are repeated until the final round when a winner is crowned!
